Deep Cleaning Checklist

Understanding Our 1–10 Clean Scale

When completing your estimate form, we ask you to rate the current condition of your home on a 1–10 Clean Scale, with 10 being the cleanest. A rating from 7-10 would typically be a home that has been regularly maintained with recurring cleaning services and has *had a deep cleaning within the last six months*.

Please rate your home as accurately as possible, as your clean scale (along with other information on the form) helps us determine your estimated price, how many cleaners are needed, and how much time we need to reserve on our schedule. If you select a clean scale above 6 and, upon arrival, the condition of the home does not reasonably match the rating provided, *a price adjustment may be necessary before the cleaning begins.*

These questions are in place so we can provide accurate pricing *ahead of time*, properly prepare our team, and avoid unexpected surprises on the day of your cleaning.
